Decrease in Heavy Metals Reported Using NDF™

Using NDF™; patient experiences symptomatic improvements in health and well being with heavy metal urine tests corroborating the results.

Cleveland, Ohio – Female patient, 64 years old, using NDF™, the heavy metal detoxifier; reports dramatic decrease of heavy metal levels after taking NDF™: 6 drops twice a day, for 7 months. Patient presented with low energy and no drive to do anything.

These tests were administered using DMPS as the challenge agent for the pre and post test listed.
Doctors Data Laboratory (LAB#: U011025-0089-1).

Urine Challenge Test	Pre 10/23/02	Post 5/6/03
Mercury	57 ppm	2.5 ppm
Lead	11 ppm	.9 ppm
Aluminum	41 ppm	< dl
Arsenic	210 ppm	110 ppm
Nickel	18 ppm	1.8 ppm
Cadmium	1 ppm	.4 ppm

All patients' previous symptoms are resolved. She is energetic and has a zest for life. *

“NDF and NDF Plus are simple, yet profound; by making all of the valuable aspects of chlorella bio-available. They have been scientifically proven to be the most effective and safest heavy metal, chemical, & neurotoxin chelators in the world today.”

Dr. Dietrich Klinghardt, MD, PhD.
